Try a volunteer opportunity with Dragonfly!
Dragonfly volunteers work all across Thailand on projects which aid communities and environment. We are committed to providing local people and wildlife with help and support, and each volunteer with the best opportunity to work abroad and experience the amazing culture of Thailand.
Teach English, Work with Wildlife, Care for Children, or Build the Future!
Dragonfly's Volunteer Thailand Projects offer volunteer opportunities for anyone interested in helping local communities in rural and marginalized areas of Thailand - regions which need support the most.

Who can volunteer?
You can! Some volunteers come during gap-year adventures before beginning university. Others take a study or career break, while still others wait until the golden years of retirement for an exciting cross-cultural experience. You can choose to stay for a short or long term –

some volunteers even work for a full year!

Why volunteer?
Coming to volunteer in Thailand may just be the best thing you've ever done. Past volunteers report eye-opening experiences and major changes in outlook as a result of their contributing work and deep immersion in the local way of life. Thailand offers a strikingly different culture and a sumptuous feast for the senses, making the country an outstanding location to visit and work in. At the same time, deeply rooted social and economic problems create a strong need in several areas that you can help fill through your voluntary work. By sharing your time, energy, expertise, and love with people in need here, you`re able to make a real difference for them and help instigate positive changes for the country at large.
